

NO ALGAE.

GUARANTEED™

Fighting algae is now as EASY as 1-2-3

1. Shock oxidize with Oxy-Brite® or Shoxidizer™
2. Treat with Algimycin® 2000
3. Sanitize with GLB chlorine or bromine products and maintain proper water balance

CONTAINS
OXONE
only by DuPont

Here's how the guarantee works...

- ✓ The GLB No Algae. Guaranteed. program applies to residential inground or aboveground pools of up to 40,000 gallons during the swimming season beginning Memorial Day and ending Labor Day.
- ✓ Professional water testing by a GLB dealer is required prior to participation and at least every four weeks thereafter.
- ✓ Pool owner must maintain proper sanitizer and balancer levels with adequate filtration and water circulation. Consult your GLB pool dealer or owner's manual for additional details. Correct levels are: pH 7.2-7.8, Total Alkalinity 80-120 ppm, Free Chlorine or Total Bromine 1-3 ppm.
- ✓ Apply Algimycin® 2000 and Oxy-Brite® or Shoxidizer™ as specified on the product labels.
- ✓ Brush and vacuum pool weekly.

Conditions

- Pre-existing algae is not covered by this offer.
- GLB will replace a maximum of \$100 (retail value) of program products.
- Proof of purchase for a GLB sanitizer, Algimycin® 2000 and either Oxy-Brite® or Shoxidizer™ is required.
- A copy of your last clean water test must be submitted.
- Guarantee limited to replacement of program product only – no cash reimbursement.
